

Assignment

UI/UX Design Questions:

- 1. What is the difference between UI (User Interface) and UX (User Experience)?**
 - Describe both concepts and how they complement each other in product design.
- 2. What are some key principles of good UI design?**
 - Discuss principles like consistency, simplicity, and clarity with examples.
- 3. What is the purpose of wireframing in the UI design process?**
 - Explain the role of wireframes and how they help in designing the layout and structure of a website or app.
- 4. How do you ensure accessibility in a website or application's design?**
 - Describe some accessibility features, such as color contrast, screen reader compatibility, and keyboard navigation.
- 5. What is a "user flow" in UX design, and why is it important?**
 - Explain how user flows are used to map the user's journey and how they help in creating an intuitive experience.
